

## **MAIN STAGE**

### **Audience hall**

|                       |     |
|-----------------------|-----|
| Total number of seats | 417 |
| Parterre              | 230 |
| First balcony         | 156 |
| Second balcony        | 31  |

### **Stage measurement**

Stage :

|                              |         |
|------------------------------|---------|
| Length (depth)               | 17000mm |
| Width                        | 13260mm |
| Stage height(to higher grid) | 11500mm |
| Stage height(to lower grid)  | 8500mm  |

Foreground :

|                |         |
|----------------|---------|
| Length (depth) | 4600mm  |
| Width          | 10200mm |
| Height         | 7000mm  |

Stage side pocket (left) :

|                |        |
|----------------|--------|
| Length (depth) | 6800mm |
| Width          | 5200mm |
| Height         | 3500mm |

Stage mirror:

|                |        |
|----------------|--------|
| Length (depth) | 900mm  |
| Width          | 8500mm |
| Height         | 7000mm |

## Stage floor plungers

Stage:

- 15 stage floor plungers
- 1 – foreground 4600X10200
- 12 – in stage 2000X3000
- 2 – in back stage 2000X9000

Parterre

- 11 – moovable audience rows, with possibility to roll over an audience seat

## Hoisting gears

- 1 – suspended FOH light brige over the audiance hall 7000mm
- 1 – suspended FOH light brige over the foreground hall 9000mm
- 5 – stationary point hoist over the foregroun
- 40 – flybars over the stage
  - Length 9000mm
  - Load capacity 750kg
  - Pipe diameter 50mm
  - Light briges capacity 600kg

No. 1- first border

No. 2- curtains

No. 3,11,18,26,32,37-sound

No. 5,12,19,27,33,38- lights

No. 1-26 max. height 10800mm

No. 27-40 max. height 7800mm

Stage side bridges

Uppers in 9000mm

lowers in 6000mm

Stage masking – black

10 legs

5 borders

1 back drop

Curtain and first border – burgundy color

## Main stage suspended light devises
